INDEPENDENT AUDITOR'S REPORT

To the President and Board of
Avondale Volunteer Fire Company, Inc. (AVF)
Avondale, Louisiana

I have audited the accompanying financial statements of the governmental activities and each major fund (i.e., the General Fund) of Avondale Volunteer Fire Company, Inc. ("AVF"), a non-profit entity d/b/a Fire Protection District No. 7 of Jefferson Parish - Avondale Division, as of and for the year ended December 31, 2008, which collectively comprise AVF's basic financial statements as listed in the table of contents. These financial statements are the responsibility of AVF's management. My responsibility is to express an opinion on these basic financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of AVF as of December 31, 2008 and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued a report dated May 31, 2009, on my consideration of AVF's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

The Management's Discussion and Analysis on pages 3 through 11 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, I did not audit the information and express no opinion on it.

In addition, the individual fund statements and schedules and supplemental information, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Paul C. River, CPA

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Avondale Volunteer Fire Company, Inc. ("AVF"), a non-profit entity d/b/a Fire Protection District No. 7 of Jefferson Parish – Avondale Division, we offer readers of AVF'S financial statements this narrative overview and analysis of the financial activities of AVF for the fiscal year ended December 31, 2008.

We encourage readers to consider the information presented here in conjunction with the financial statements, which begin on page 14.

FINANCIAL HIGHLIGHTS

- The assets of AVF exceeded its liabilities at the close of the most recent fiscal year by \$443,532 (*net assets*). Of this amount, \$251,369 or 56.7 percent is invested in capital assets, such as vehicles and equipment. The remaining balance of \$192,163 (*unrestricted net assets*) or 43.3 percent may be used to meet the government's ongoing obligations to citizens and creditors.
- AVF'S total net assets decreased by \$(133,686) or 23.2 percent during the current year because the net program expenses exceeded the general revenues by that amount.
- As of the close of the current fiscal year, AVF'S governmental fund (the General Fund) reported ending fund balance of \$192,163, a decrease of \$(72,300) or 27.3 percent in comparison with the prior year. Approximately \$192,163 or 100.0 percent of this total amount is available for spending at the government's discretion (*unreserved fund balance*).
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$192,163 or 26.2 percent of total general fund expenditures. This compares to 38.6 percent last year.
- AVF'S had no outstanding long-term debt at June 30, 2008.
- Hurricanes Gustav and Ike struck the area serviced by AVF in September 2008. AVF has filed claims for reimbursement from FEMA for emergency related overtime and equipment usage. See section entitled "Other Potentially Significant Items" for further discussion.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to AVF'S basic financial statements. As noted above, AVF'S adoption of GASB Statement No. 34 significantly changed the format and presentation of AVF'S financial report. AVF'S basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The "government-wide financial statements" are designed to provide readers with a broad overview of AVF'S finances, in a manner similar to a private-sector business.

The "Statement of Net Assets" presents information on all of AVF'S assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of AVF is improving or deteriorating.

The "Statement of Activities" presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements are designed to distinguish functions of AVF that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). It should be noted that AVF only has governmental activities.

The government-wide financial statements include only the financial activities of AVF, which include the activity of all AVF cash and savings accounts.

The government-wide financial statements can be found on pages 14 and 15 of this report.

Fund financial statements. A "fund" is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. AVF, because it is a "quasi-public" entity, uses fund accounting like state and local governments to ensure and demonstrate compliance with finance-related legal requirements.

AVF'S funds can be classified into three categories: governmental funds, proprietary funds, and fiduciary funds. As discussed below, AVF only presents governmental funds.

Governmental funds. “Governmental funds” are used to account for essentially the same functions reported as “governmental activities” in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government’s near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for “governmental funds” with similar information presented for “governmental activities” in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between “governmental fund” and “governmental activities”.

AVF maintains only one fund (the General Fund). Information is presented in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the General fund.

AVF is a “quasi-public” entity and is not required to adopt an annual budget. Thus, a budgetary comparison statement is not shown.

The basic governmental fund financial statements can be found on pages 14 to 19 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21 to 29 of this report.

Other information. Individual fund statements and schedules, which show additional detailed financial information on the General Fund, are found on pages 32 and 33.

Supplemental information. Supplemental Information, which includes the Schedule of Expenditures of Federal Funds, is found on page 36.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of AVF, assets exceeded liabilities by \$443,532 at December 31, 2008.

A large portion of AVF'S net assets (56.7 percent) reflects its investment in capital assets (e.g., land, buildings, furniture and fixtures, vehicles and heavy equipment); less any related debt used to acquire those assets that is still outstanding. AVF used these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although AVF'S investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities.

AVONDALE VOLUNTEER FIRE COMPANY, INC. STATEMENTS OF NET ASSETS

	Governmental Activities 2008		Governmental Activities 2007	
Current and other assets	\$ 192,825		\$ 276,262	
Capital assets	251,369		312,755	
Total Assets	444,194		589,017	
Long-term liabilities outstanding	-		-	
Other liabilities	662		11,799	
Total Liabilities	662		11,799	
Net Assets:				
Invested in capital assets, net of related debt	251,369	56.7%	312,755	54.2%
Restricted	-	0.0%	-	0.0%
Unrestricted	192,163	43.3%	264,463	45.8%
Total Net Assets	\$ 443,532		\$ 577,218	

The balance of *unrestricted net assets* (\$192,163 or 43.3 percent) may be used to meet the government's ongoing obligations to citizens and creditors.

At December 31, 2008, AVF is able to report positive fund balances in all three categories of net assets.

AVF'S net assets decreased by \$(133,686) during the current fiscal year.

Governmental Activities. Governmental activities decreased AVF'S net assets by \$(133,686). Key elements of this decrease are as follows:

AVONDALE VOLUNTEER FIRE COMPANY, INC.
STATEMENTS OF ACTIVITIES

	Governmental Activities 2008		Governmental Activities 2007	
Revenues:				
Program revenues:				
Charges for services	\$ -	0.0%	\$ 998	0.1%
Operating grants and contributions	43,782	6.6%	35,729	5.3%
Capital grants and contributions	-	0.0%	91,998	13.5%
General revenues:				
Intergovernmental	596,510	90.1%	547,631	80.5%
Unrestricted interest	4,009	0.6%	1,619	0.2%
Unrestricted gifts and donations	-	0.0%	539	0.1%

Total revenues	662,267	100.0%	680,194	102.7%
Expenses:				
Public Safety	795,953	100.0%	678,986	100.0%
Total expenses	795,953	100.0%	678,986	100.0%
Increase in net assets	(133,686)		1,208	
Net assets - Beginning of year	577,218		576,010	
Net assets - end of year	\$ 443,532		\$ 577,218	

- Operating grants of \$43,782 relate to FEMA public assistance grants for Hurricanes Katrina (in 2005), Gustav (in 2008) and Ike (in 2008). These reimbursements are for overtime and equipment usage. The capital grant of \$91,998 in 2007 is for an Office of Homeland Security - Assistance to Firefighters grant. This grant did not recur in 2008.

- Intergovernmental revenues come from the Parish of Jefferson and the State. The Parish levies an ad valorem tax in the District and remits a certain amount to AVF each month to provide funding to the Fire District. This allocation came in at \$552,000 for 2008, which is \$60,000 more than the prior year. The Parish also provided \$29,689 towards the purchase of a new truck. These monies come from a special 2 mill tax. Finally, the State provided \$14,821 to AVF for fire insurance rebates.

- Miscellaneous income of \$17,966 was made up of various items. The primary items were an \$8,714 dividend on the workers compensation plan and \$7,609 in insurance claims for Gustav. Other proceeds were from the sale of fire reports and fees from the State for holding elections at the fire house.

- A breakdown of the revenues received by AVF'S governmental activities is as follows:

Revenues by Source - Governmental Activities

Expenses totaled \$795,953, including current year depreciation of \$92,943. This is an increase of \$116,967 over the prior year. As a fire district, the only function AVF provides is the public safety function. The main increases were seen in station expenses (up \$63,308), personnel and related costs (up \$54,644), vehicle expenses (up \$16,207), and general and administrative costs (up \$14,753). Station expenses increased due to hurricane related costs and repairs to the fire station. Salaries were up due to hurricane-related overtime, as well as an increase in workers compensation insurance. Vehicle expenses were up due to the rising costs of gasoline and repairs to various trucks. General and administrative costs increased primarily in insurance (due to a switch in insurance policies). These expenses of AVF were offset by program revenues – operating grants of \$43,782, leaving a net revenue (cost) to citizens of AVF of (\$752,171). A graph comparing the expenses with the program revenue generated is presented below.

Expenses and Program Revenues by Function/Bureau

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, AVF uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of AVF'S "governmental funds" is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing AVF'S financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2008, AVF'S governmental fund (i.e., the General Fund) reported ending fund balance of \$192,163, a decrease of (\$72,300) or 27.3 percent in comparison with the prior year. Approximately \$192,163 or 100.0 percent of this total constitutes *unreserved fund balance*, which is available for spending at the government's discretion.

As noted above, the governmental funds include the general operating funds of AVF (i.e., the General Fund). Overall, as the graph shows, Governmental Fund revenues have decreased slightly each of the last three years. The decreases are seen in intergovernmental grants (FEMA reimbursements and Fire Fighting Grants). Because of the small size of the operating fund, operating and capital grants can create large swings in revenues when recognized.

As a measure of the General fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures.

Unreserved fund balance represents 26.2 percent of total general fund expenditures. This compares to 38.6 percent last year.

The fund balance of AVF'S General fund decreased by (\$72,300) during the current fiscal year. Key factors in this change are as follows:

- The General Fund's revenues totaled \$662,267 while expenditures totaled \$734,567.
- Revenues decreased by (\$17,927) from the prior year, mainly because of:
 - Federal grants dropped \$(83,945) - \$(91,998) due to OHS – Firefighter grant not recurring offset by an increase of \$8,053 in FEMA reimbursements (Gustav and Ike).
 - Intergovernmental allocation (i.e., Property taxes) totaled \$552,000, which is up \$60,000 from the \$492,000 recognized last year. The Parish's contribution for the capital purchases totaled \$29,689, a decrease of \$(11,311), and the State Fire Insurance Rebate totaled \$14,821 (up \$190).
 - Miscellaneous income was up \$16,286 due to insurance proceeds for damaged buildings (\$7,069) and a dividend from the workers compensation plan (\$8,714).

- Expenditures totaled \$734,567, an increase of \$49,057 or 7.2 percent compared to the prior year.
 - Salaries and related costs increased by \$54,644 due to hurricane-related overtime and an increase in workers compensation insurance,
 - General and administrative costs were up nearly \$14,753 due to increases in auto insurance (up \$9,954) and travel and conventions (up \$3,180),
 - Firefighting costs and supplies were down \$(32,739) due to a decrease of \$(33,059) in firefighting apparel and a decrease of \$(1,074) in emergency supplies. These decreases were due to expenditures in the prior year of a grant that did not recur,
 - Station expenses were up \$63,308 due to an increase in station repairs and maintenance of \$28,944 and hurricane-related costs of \$32,548 (Gustav and Ike),
 - Vehicle expenses were up \$16,207 due to an increase in vehicle repairs and maintenance of \$12,587 and an increase of \$3,620 in gas and oil,
 - Capital outlays were down \$(32,825) due primarily to a decrease in purchases of firefighting equipment under the OHS – Firefighting Assistance Grant. This decrease was offset by the purchase of a new truck for \$29,689.
 - Debt service decreased from \$34,291 in 2007 to \$-0- in 2008 as the capital lease was paid off last year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. AVF'S investment in capital assets for its governmental activities as of December 31, 2008 amounts to \$251,369 (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings, furniture and fixtures, heavy equipment, and vehicles. AVF'S investment in capital assets decreased by \$(61,386) or 19.6 percent this year. The debt related to the capital assets was paid off in 2007.

Major capital asset events during the current fiscal year included the following:

- \$1,868 was spent on furniture and fixtures (a new break room television, a new A/C for the operator's room, and a new air compressor).
- \$29,689 was spent on a new Ford F350 truck and an old truck was sold.
- \$92,943 was recognized as depreciation expense.

AVONDALE VOLUNTEER FIRE COMPANY, INC.

CAPITAL ASSETS (NET OF DEPRECIATION)

	Governmental Activities 2008	Governmental Activities 2007
Land	\$ 8,834	\$ 8,834
Buildings	-	1,568
Furniture and fixtures	1,895	2,392
Vehicles and firefighting equipment	240,640	299,961
Total	<u>\$ 251,369</u>	<u>\$ 312,755</u>

Additional information on AVF'S capital assets can be found in Note D.2 on page 27.

Long-term Debt. At the end of 2008, AVF had total outstanding debt of \$-0-, as the capital lease on the truck was paid off in 2007.

ECONOMIC FACTORS AND NEXT YEAR'S RATES

- The unemployment rate for the Parish of Jefferson is currently 3.7 percent, which is 0.7 percent lower than it was a year ago.
- Inflationary trends in the region compare favorably to national indices.
- The ad valorem millage rate levied for the 2008 (next year's) tax roll was 23.167 mills (19.74 operating and 3.42 bond). This rate decreased 3.81 mills because of a roll-back in the levy after the reassessment by the Assessor's Office.

OTHER POTENTIALLY SIGNIFICANT ITEMS

In September 2008, Hurricane Gustav struck the New Orleans Metropolitan area and the Mississippi Gulf Coast, including the area serviced by AVF. Two weeks later, Hurricane Ike grazed the Louisiana coast on its way to Texas. The employees of AVF worked during and after the storms and incurred claims for overtime and equipment usage. These costs are being reimbursed by FEMA in the form of a public assistance grants. Additional information is included in Note G on page 29 of the report.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of AVF'S finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Avondale Volunteer Fire Company, Inc., President, 500 S. Jamie Blvd. Avondale, LA 70094.

d/b/a
FIRE PROTECTION DISTRICT NO. 7 OF JEFFERSON PARISH
AVONDALE DIVISION**

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO
THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2008**

Amounts reported for governmental activities in the Statement of Activities (page 15) are different because:

Net change in fund balances - total governmental funds (page 18)	\$	(72,300)
--	----	----------

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	(61,386)
---	----------

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets.	-
--	---

The issuance of long-term debt (e.g., notes payable, leases) provides current financial resources to the governmental funds, while the repayment of the principal on long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.	-
--	---

Change in net assets of governmental activities (page 15)	<u>\$</u>	<u>(133,686)</u>
---	-----------	------------------

The accompanying notes are an integral part of this statement.

AVONDALE VOLUNTEER FIRE COMPANY, INC. (AVF)
d/b/a
FIRE PROTECTION DISTRICT NO. 7 OF JEFFERSON PARISH -
AVONDALE DIVISION

NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Avondale Fire Company, Inc. ("AVF"), a non-profit entity d/b/a Fire Protection District No. 7 of Jefferson Parish - Avondale Division, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units under the legal premise that AVF is a "quasi-public" corporation. Quasi-public corporations are non-profit or private companies who are created to perform a public service and which receive the majority of their funding from public funds (i.e., taxes, grants, etc.). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of AVF's accounting policies are described below.

1. Reporting Entity

GASB Codification Section 2100 establishes criteria for determining the governmental reporting entity and its component units. Component units are defined as legally separate organizations for which the elected officials of a primary government are financially accountable. The criteria used in determining whether financial accountability exists include the appointment of a voting majority of an organization's governing board, the ability of the primary government to impose its will on that organization or whether there is a potential for the organization to provide specific financial benefits or burdens to the primary government. Fiscal dependency may also play a part in determining financial accountability. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Fire District No.7 of Jefferson Parish (the "District") was created by Parish Ordinance to provide fire protection services to the citizens of the District and the surrounding area. The District is serviced by five separate fire companies/divisions, each receiving a pro-rata share of the District's revenues. The District is currently funded by a 25 mill ad valorem tax levied by the District via the Parish Council and is governed by the same Council that governs the Parish. As such, the District is reported as a component unit within the Parish's financial statements.

Under a cooperative endeavor agreement, the daily operations of the District's Avondale Division are contracted out to Avondale Volunteer Fire Company, Inc. ("AVF"). AVF was incorporated as a non-profit service corporation under Section 501(c)(3) of the Internal Revenue Code. AVF has been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions as provide in Section 170(b)(1)(A)(vi). AVF is governed by a President and a Board of Directors which are elected by the membership. The accompanying statements report transactions related only to those of AVF.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2008

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of AVF. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Because of the nature of AVF's operations, AVF reports only governmental activities.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Funds are used by AVF to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. The funds of AVF are classified into the "governmental" category. The category, in turn, is divided into separate "fund types".

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital project funds), and the servicing of general long-term debt (debt service funds). The General Fund is used to account for all financial activities of the general government not accounted for in some other fund.

AVONDALE VOLUNTEER FIRE COMPANY, INC. (AVF)
d/b/a
FIRE PROTECTION DISTRICT NO. 7 OF JEFFERSON PARISH -
AVONDALE DIVISION

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2008

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

AVF reports the following major governmental funds:

The *General Fund* is the general operating fund of AVF. It is used to account for all financial resources and expenditures. It includes the activity of the "private" account, as well as the "public funds" account.

3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using a *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Intergovernmental revenues received from the Parish in connection with the cooperative endeavor agreement are recognized in the year to be benefitted. All other service charges and intergovernmental revenues are recognized as received. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recognized as expenditures only when payment is due.

4. Budgets

As a quasi-public corporation, AVF is not required to adopt a budget, therefore, a budget to actual statement is not presented in the accompanying financial statements. An informal budget is adopted for internal purposes for the General Fund.

5. Assets, Liabilities, and Net Assets or Equity

A. *Cash and Investments*

For reporting purposes, cash and cash equivalents includes amounts in demand deposits, time deposits, and certificates of deposit.

Investments, if any, are stated at fair value, except for investments in government securities with maturities less than 1 year, which are stated at cost or amortized cost.

AVONDALE VOLUNTEER FIRE COMPANY, INC. (AVF)
d/b/a
FIRE PROTECTION DISTRICT NO. 7 OF JEFFERSON PARISH -
AVONDALE DIVISION

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2008

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Inventories

The cost of materials and supplies acquired by AVF are recorded as expenditures at the time of purchase. It is management's opinion that the inventory of such materials and supplies at December 31, 2008 would not be material to the financial statements.

C. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by AVF as assets with an initial, individual cost of more than \$100 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed and are included in construction in progress. The levees and breakwaters are divided into reaches and are capitalized as such. Any major "lifts" or improvements to an existing levee/reach is capitalized as an addition to that levee/reach.

Property, plant, equipment, and infrastructure is depreciated using the straight-line method (with a mid-year convention) over the following estimated useful lives:

<u>Asset Category</u>	<u>Useful Life in Years</u>
Buildings and improvements	20
Furniture and fixtures	3 to 5
Vehicles and heavy equipment	3 to 20

D. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balances for amounts that are not available for appropriation or are legally restricted by outside parties for a specific future use. Designated fund balances represent tentative plans for future use of financial resources that are subject to change.

AVONDALE DIVISION

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2008

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances - total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$(61,386) difference are as follows:

Capital outlay	\$ 31,557
Depreciation expense	<u>(92,943)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets - governmental activities</i>	<u>\$ (61,386)</u>

NOTE C - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

1. Compliance with Cooperative Endeavor Agreement

As a quasi-public corporation, AVF is not subject to all of the general statutes governing political subdivisions and other governments within the State of Louisiana. Instead, AVF must comply with the terms and conditions of the cooperative endeavor agreement it has with the Parish of Jefferson. As of December 31, 2008, AVF was in compliance with all of the significant conditions of the agreement.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2008

NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

It should be noted that the purchase of a truck was financed via a special 2 mill ad valorem tax levied by the Parish Council/Fire District No. 7. The Parish paid \$29,689 for the new truck and provided the truck to AVF for use in its fleet. The expense for the truck is recorded in AVF's statement of activities offset by a intergovernmental revenue of the same amount.

3. Receivables

A breakdown of AVF's receivables at year end is as follows:

	<u>General</u>
Receivables:	
Due from other Governments	
FEMA Public Assistance - Gustav/Ike	\$ 35,954
Office of Homeland Security - Firefighters Assistance Grant	0
Total Governmental Activities	<u>\$ 35,954</u>

The grants have been completed as of December 31, 2008.

NOTE E - ECONOMIC DEPENDENCE

The Parish Council levies a 25 mill ad valorem tax to finance the operations of Fire Protection District No. 7. The Parish in turn contracts with local volunteer fire companies to provide fire protection services on a daily basis. AVF is one of five fire companies operating in Fire Protection District No. 7. Each fire company receives on a monthly basis, 1/12th of the currently budgeted revenues expected to be collected from the 25 mill tax.

During 2008, the remittance to AVF for operations totaled \$552,000 or 83.4 percent of its total revenues. Also, as mentioned in NOTE D.2, AVF received a truck valued at \$29,689 from the Parish through its Fire Protection District No. 7 capital account.

d/b/a
FIRE PROTECTION DISTRICT NO. 7 OF JEFFERSON PARISH -
AVONDALE DIVISION

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2008

NOTE F - COMMITMENTS AND CONTINGENCIES

1. Risk Management

AVF is exposed to various risks of loss resulting from personal injury; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; medical malpractice; and natural disasters. To protect against these risks of loss, the District purchases various types of insurance from commercial carriers (some directly and some through the Parish of Jefferson). In each policy, AVF is responsible for the deductible.

2. Litigation

There is no litigation pending against AVF at December 31, 2008.

NOTE G - OTHER INFORMATION

1. Retirement

AVF's employees are members of the Social Security System. In addition to the employee contribution withheld at 7.65 per cent, AVF contributes an equal amount to the System. Aggregate pension costs for the year is \$32,297. AVF does not guarantee the benefits granted by the Social Security System.

2. Hurricanes Gistav amd Ike

On August 29, 2008, Hurricane Gustav struck the New Orleans Metropolitan area, which includes Jefferson Parish and the area serviced by AVF. While the Parish was spared from a direct hit, there was wind and water damage in scattered areas throughout the area. On September 11, 2008, Hurricane Ike grazed the area.

After the hurricanes, AVF incurred expenses for overtime, emergency repairs, debris removal, etc., most of which is to be reimbursed by the Federal Emergency Management Agency (FEMA). A receivable for eligible claims totals \$35,954 was booked at December 31, 2008. This amount was collected in 2009.

NOTES TO SCHEDULE:

This Schedule of Expenditures of Federal Awards includes the federal grant activity of the Avondale Volunteer Fire Company and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

COMPLIANCE SECTION

Paul C. Rivera, CPA

**INDEPENDENT AUDITOR'S REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the President and Board of
Avondale Volunteer Fire Company, Inc. (AVF)
Avondale, Louisiana

I have audited the accompanying financial statements of the governmental activities and each major fund (i.e., the General Fund) of Avondale Volunteer Fire Company, Inc. ("AVF"), a non-profit entity d/b/a Fire Protection District No. 7 of Jefferson Parish - Avondale Division, as of and for the year ended December 31, 2008, which collectively comprise AVF's basic financial statements, and have issued my report thereon dated May 31, 2009. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing my audit, I considered AVF's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of AVF's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of AVF's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects AVF's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of AVF's financial statements that is more than inconsequential will not be prevented or detected by AVF's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by AVF's internal control.

My consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether AVF's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion.

The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of AVF's management, the Louisiana Legislative Auditor, all applicable Federal and State awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statutes 24:513, the report is distributed by the Legislative Auditor as a public document.

Paul E. Arice, CPA

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended December 31, 2008**

I have audited the financial statements of the Avondale Volunteer Fire Company, Inc. (AVF) as of and for the year ended December 31, 2008, and have issued my report thereon dated May 31, 2009. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. My audit of the financial statements as of December 31, 2008 resulted in an unqualified opinion.

SECTION I - SUMMARY OF AUDITOR'S REPORTS

A. Report on Internal Control and Compliance Material to the Financial Statements

Internal Control:

No Reportable Conditions were noted.

No Material Weaknesses were noted.

Compliance:

No instances of noncompliance material to the financial statements were noted

B. Federal Awards - not applicable

C. Identification of Major Programs - not applicable

SECTION II - FINANCIAL STATEMENT FINDINGS

No Findings

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

Not Applicable

SECTION IV - STATUS OF PRIOR YEAR FINDINGS

Not Applicable
